

Corporate contribution guidelines

Insperity's philanthropic commitment to our communities is evident in the support we provide nonprofit organizations.

ELIGIBLE ORGANIZATIONS

For an organization to be eligible for financial, volunteer or in-kind support, they must be a 501(c)(3) nonprofit organization and at least one of the following criteria must be met:

- Our employees are passionate about and involved with the organization.
- The nonprofit charitable organization is an Insperity client.
- The organization contributes to the communities where our employees live and work.

INELIGIBLE ORGANIZATIONS

- Religious organizations, such as houses of worship, whose main purpose is promoting a particular faith. (Faith-based charities whose operations are non-discriminatory and meet social needs are eligible.)
- Political organizations
- Charities based outside of the United States
- Individuals
- Youth sports sponsorships

You can find the three donation request types on the **Corporate Citizenship** section of Insperity's website. For best results when completing a grant request form, please do not cut and paste from a Word document, and limit your responses to 1,000 characters or less. If you have any questions, email corporate.citizenship@insperity.com.
